

Purchase Digitalk Real-Time Log Parser

How many hours are you spending on searching through hard-to-read logs?

How many times you wanted just a simple way of searching and filtering your Digitalk logs?

How important is your customer's satisfaction in relation with the SPEED of solving their problems?

We believe the "Digitalk Real-Time Log Parser" product can improve your ROI in absolutely no time and a for a price that is less than 1% of your original investment in the Digitalk MSP it would prove itself to be a big money saver for the organization.

Please contact us by email or phone to provide you with a customized quote for your organization needs. Our quote would have to take in consideration if an engineer would have to be onsite or a remote instalation is possible, as well as the number of Digitalk MSPs that would have to be monitored. A fully-functional trial period can be setup as well. Rest assured we have a solution for your Digitalk log-monitoring needs!

Digitalk Real-Time Log Parser comes with un-parallel support and dedication from a team of engineers that has more than 15 years of experience in IT and telecommunications industry. Please read as well our Maintenance Support offer.
